Central to the Phoenix Workforce

Companies are drawn to the Phoenix Metro not only for its close proximity to the Sky Harbor International Airport and Arizona State University's skilled graduates, but also for its **easy access to approximately 60% of the area's labor force** within a 30 minute commute.

For us, our tenants and their businesses aren't just made up of copy machines, post-it notes and drywall. They are real people with real responsibilities that extend beyond their workspace's four walls. We make it a point to provide our tenants with amenities that promote a work-life balance.

Property Management

All Workspace Property Trust buildings are locally supervised by an in-house team of property managers, administrators and building technicians. WSPT provides tenants with a high-quality, reliable and value-driven experience allowing businesses to focus on their priorities.

Construction Management

Our in-house construction team works alongside our general contractors, consultants and licensed professionals to allow our tenants to have an active role in the build-out process as desired. Our team can craft a space that is consistent with branding goals and overall tenant needs. From the initial space design, to finalized plans, all the way through build-out and into occupancy, Workspace brings a tenant's space to completion with the highest quality of construction management.
